INTRODUCTION

Seashore GROUP is one of the largest multi-disciplinary business conglomerates in the State of Qatar. The group operates from its headquarters at Al Khor, which is about 50 km north of Doha City. The owner and Chairman of the Group, Mr. Saeed Salem Al Mohannadi, a Qatari businessman, and the Managing Director, Mr. Mohamed Ali, an Indian entrepreneur, established the company in 1989. The group started small, with just three workers and modest assets. Today Seashore is a thriving enterprise with over 5000 employees and current assets totaling over QR 1000 million. The group has grown at an exponential growth rate since its inception.

Currently Seashore Group comprises 17 divisions that are operated by a highly professional team of qualified managers, expert technicians and tradesmen. The group owns and operates several state-of-the-art plants, machinery, equipment, vehicles, well-equipped factories, workshops and a laboratory. Seashore also offers well-furnished, comfortable camp facilities for its employees.

The 17 divisions of Seashore that currently provide customers with high quality services and products are:

- SEASHORE ENGINEERING & CONTRACTING
- SEASHORE STEEL W.L.L (MELTING & ROLLING)
- SEASHORE GALVANIZING FACTORY
- SEASHORE WASTE MANAGEMENT
- SEASHORE HEAVY EQUIPMENT & LOGISTICS
- SEASHORE AUTOMOBILES (SINOTRUK)
- SEASHORE VEHICLE CHASSIS & BODY MANUFACTURING
- SEASHORE MEDICAL & INDUSTRIAL WASTE
- VOLTA BATTERY RECYCLING
- SEASHORE HYDRAULICS & FUEL INJECTION SYSTEMS
- SEASHORE STEVEDORING SERVICES
- SEASHORE TRADING CO.
- SEASHORE PIPES
- SEASHORE PANEL
- SEASHORE CABLES
- SEASHORE MOTOR REWINDING
- DUTY WEAR

Seashore Group has diversified its operations to provide ingenious solutions to the diverse needs of its clients and customers. Our top management is innovative and has wide-ranging knowledge of the ground realities and developmental factors in the country. They also have a keen grasp of regional and global factors. This insight helps them envision and create pathbreaking business opportunities for the group. Our Chairman and our Managing Director have always provided us with clear vision and prudent leadership. This in turn, has helped put Seashore firmly on the path to success and ensured that Seashore becomes a name to be reckoned with both regionally and globally.

When it comes to the safety and well-being of our clients, customers, employees, assets and even people within our work areas and the community at large, Seashore brooks no compromises. We place a high premium on safety and the lives of our people. Our workers are trained to work with strict adherence to safety rules and regulations at worksites and other places as well. Seashore staff and workers are thorough with the safety policies and procedures implemented by companies operating in the Ras Laffan Industrial City (RLIC), Dukhan, Mesaieed and other industrial sites throughout Qatar. Our commitment to occupational health, safety and the environment has earned us numerous awards & appreciation from several of our major clients. These awards are a testimony to Seashore's commitment to high-quality performance and customer satisfaction without compromising on safety.

The cornerstone of our business is 'partnership'. For us, this means our clients and employees working together to achieve project / contract / business objectives in a mutually advantageous manner. Seashore's primary focus has always been on properly managing scope, schedule, budget and quality of each project. We conduct our business in line with best practices globally and with utmost integrity and honesty. Constant innovation and improvement is a way of life at Seashore and this underlines our commitment to be the best service provider and product supplier to our valued clients and customers. Seashore's phenomenal growth over 35 years is irrefutable proof of its commitment to continuous improvement.

Seashore is completely aware of the importance of sustainable development and is completely committed to it. We strongly support our Government's drive towards sustainability. We play a vital and significant role in waste management not only in the Ras Laffan and Al Khor areas but also in other major industrial sites throughout Qatar. Over the years, we have been providing waste management services to Operating Companies in RLIC and other industrial locations. It is our policy to do our part to preserve and even improve the environment with proper waste management and prudent utilization of resources (especially energy). This will help us to meet current needs while steadfastly protecting and conserving resources for our future generations. Our short-range and long-range programs include initiatives that are geared towards helping maintain biodiversity in our ecosystem by providing and improving the habitats of endangered marine and other species within Qatar's environment.

We, at Seashore are deeply aware of our social responsibility and are committed to giving back part of our business revenue to the greater good of the community. Seashore has actively sponsored several social and community events and has always been involved in several charitable initiatives.

Saeed Salem Al-Mohannadi
Chairman

Mohamed Ali
Group Founder & Managing Director

MESSAGE FROM THE CHAIRMAN AND THE MANAGING DIRECTOR:

Seashore has achieved phenomenal growth over the last 35 years due to several factors - the first and foremost of which is the blessing of the ALMIGHTY, most Merciful and most Compassionate, who has imparted to us a measure of His wisdom and knowledge and has rewarded our endeavors with success.

We are proud of our long, strategic and historic partnership with the people of Qatar and all our reputed clients, and of our joint efforts to work in the sustainable manner in support of Qatar National Vision's four pillars of human, social, economic and environmental development. And we commit to doing our part to further these goals.

Seashore is committed to support the State of Qatar as we believe that the most important contribution we can offer to Qatar and its citizens is to help support the economic growth and well-being of the nation by extending value-added services in diverse fields of operations. From its modest beginning, Seashore now stands mighty and has grown as one of the largest, leading service providers in the State of Qatar. This is simply because of the grace of Almighty, fuelled by hard work of all our employees.

Our goal is to maintain the role as a major service provider in the State of Qatar by ensuring Productivity, Safety, Punctuality and Quality of its services to client's satisfaction.

From the bottom of our heart, we extend sincere regards & gratitude to the government of Qatar, to our valued clients & customers and to all our employees for making Seashore what is today- one of the largest and leading business groups in the state of Qatar and we have to work together as a TEAM for better tomorrows.

OUR VISION

Our vision is to help our customers achieve greater success through our innovative and creative solutions to any challenge. We will continue on our path of constant growth and diversification. Our dedicated team will constantly strive to bring growth and development to Qatar without compromising on our high standards. We will help our clients turn their dreams into reality.

OUR MISSION

Our mission is to consistently offer the very best to our customers, be it products or services. We will relentlessly work towards meeting the changing needs of our clients and continually exceed their expectations. We will strive to attract, invest in and retain the best talents in the industry and ensure their safety and satisfaction. We will maintain the highest standards of quality, professionalism and ethics in all that we do.

HEALTH, SAFETY & ENVIRONMENT

Seashore, as a trendsetter in the service sector is completely committed to implementing and maintaining the highest standards of Health, Safety & Environment (HSE) throughout all its operations. Towards this end we have effected a comprehensive and integrated Health Safety Management system. This provides a model and framework of policies & procedures that cater the safety and welfare of people, property and environment.

Our HSE objectives are to:

- Provide a safe & healthy working atmosphere
- Achieve zero Lost Time Injury
- Protect the environment from any sort of harm
- Conserve natural resources
- Be always prepared to manage any sort of emergency
- Identifying and assess risks associated with any work and establish methods to mitigate the risks
- Maintain and continuously improve our system and to ensure the safety of people and assets
- Promote sustainable development

We have set clear cut objectives, responsibilities and accountability for HSE performances across all levels of the organization along with a strict measurement and reporting system. Ensuring proactive communication and extending appropriate training all employees to achieve HSE objectives is carried out as an integral part of our training plan.

Our quality management system ensures product and service quality by incorporating a well-defined quality control process. We are continually improving upon the quality of our products and services so as to ensure customer satisfaction.

Seashore has always taken an initiative in all environmental issues, and considers its responsibility for the preservation of the environment as a core commitment. We actively practice the 4R concept (Reduce, Reuse, Recycle and Replace) as the basic tenet of waste minimization. We are fully committed to promoting sustainable development.

Social Responsibility

Seashore's corporate social environmental responsibility (CSER) program is aimed at providing a support system to socio-economic development & environmental conservation. Our ultimate aim is a healthy and prosperous society. Hence, Seashore is proactive in social & environmental issues, and considers the preservation of the environment as a core commitment.

Seashore Employees welfare association (SEWA), which is supported and aided by all Seashore employees, is a platform for reinforcing our commitment towards the socio-economic wellbeing of our employees and society at large. Some of the socio-environmental activities of Seashore are

- Green-the-Earth program
- Environmental awareness program
- Annual Cultural program
- Blood Donation Camp
- Charity works

SEASHORE ENGINEERING & CONTRACTING W.L.L (MECHANICAL)

Seashore Engineering & Contracting, a part of Qatar's leading business conglomerate, the Seashore Group, specializes in Engineering, Construction Contracts, Steel Fabrication, Painting, Erection, Cladding and project Management of turn-key structural steel works for industrial sectors especially oil & Gas, petrochemical, infrastructure and process industries. We also undertake machining mechanical maintenance works for process plants, marine vessels and ports.

Our mechanical shop floor spread over an area of 25000 Square meters with state-of-the-art facilities and our experienced workforce helps us execute our work in a technically precise and perfect manner. The fully automated shop floor is equipped with modern machinery including our own custom-designed blasting, galvanizing and painting facilities. Our expertise and professionalism helps us offer our customers the very best.

The company also offers its services, know-how and products in other sectors such as Construction / infrastructure / piping sectors. In conjunction with its civil division, it provides a complementary and wider range of products to clients whose projects may include a combination of heavier structural steel requirements, as well as Pre-engineered buildings.

Seashore Engineering & Contracting W.L.L is managed by a team of professionals with an average experience of twenty years in the structural steel industry. Our team has executed a number of prestigious and high-profile projects in Qatar.

Seashore is licensed to manufacture chassis and cargo bodies for heavy truck and trailers, flat bed trailers, low bed trailers, dumpsters, tankers (TSE, Sewage, Fuel and Water), refuse compactors and freezer cargo bodies. We are the preferred and approved body manufacturing company in the state of Qatar endorsed by Ministry of Municipality & Urban Planning, Mechanical equipment Department.

Seashore is ISO 9001: 2008, ISO 14001:2004 & BS OHSAS 18008:2007 Management Systems Certified. In keeping with the company's objective of complete customer satisfaction, the Engineering and Contracting Division of Seashore provides quality services and solutions within a strict time bound framework

EXPERTISE:

- Engineering Design
- Structural Steel Fabrications
- Mechanical maintenance jobs for process plants and marine vessels
- Procurement & Supply
- Erection & Installation Turnkey Projects
- Contractors Heavy truck body manufacturing
- Manufacturing dumpsters
- Machining jobs
- Blasting & painting
- Hot dip Galvanizing

BLASTING UNIT:

We incorporate advanced blasting technology with customized blasting facility.

- SAND Blasting
- GARNET Blasting
- GRIT Blasting
- COPPER SLAG Blasting

GALVANIZING UNIT:

Seashore Galvanizing Factory, an ISO 9001:2008, QMS certified company is an integral part of Seashore Engineering & Contracting with full-fledged facilities for hot dip Galvanizing.

Hot dip Galvanizing Standards: BE EN ISO 1461, ASTM A123/A 123M & ASTM A 385

PAINTING UNIT:

State-of-the-art facility for painting with sophisticated equipment & technology.

- Air & airless spray painting
- GRP

CERTIFIED & QUALIFIED FABRICATORS

- Pipe Fitters
- Structural Steel Fabricators

CERTIFIED WELDERS:

- 6G Welders for pipe welding
- 3G Welders for vertical & horizontal welding
- TIG Welders for thin sheet welding
- STAINLESS Steel welding

We follow ANSI/AWSD1.1, BSEN ISO: 15614-1 welding standards and procedures in stainless steel and mild steel.

ERECTION:

- Certified Scaffolders
- Certified Riggers
- Skilled Erectors

FACILITY & EQUIPMENT:

CNC Oxy Fuel cutting Machine, CNC Milling Machine, CNC Lathe, Dish end Forming Machine and Flanging machine, Column and boom welding machine, Metal sheet cutting machine, Threading Machine, Horizontal milling machine, Punching & notching machine, Eccentric cutter, Hydraulic bending machine, Shearing machine, Pipe rolling machine ,Angle rolling machine, Shaping machine, Surface grinding machine and Overhead crane.

SEASHORE STEEL W.L.L

Seashore STEEL W.L.L offers a state-of-the-art facility for internationally approved quality MS billets, Steel bars, Angles, Channels, H-beams, etc. The plant has an induction furnace for the production of MS billets and a Rolling mill for the production of steel bars, angles, Channels and H-beams.

Seashore steel W.L.L is the first private steel melting and hot rolling company in the state of Qatar. We are located in the Doha new industrial area with a 5000 square meter facility with Euro spec operation and emission standards

The production capacity is 7500 tons of billet/month with the installation of 25 ton induction furnace, a ladle refining furnace and continuous casting machine. The plant has the rolling capacity of 500-550 tons a day and the capacity for melting shop is 300 tons a day.

The rerolling mill can produce structural and construction steel in the form of light sections such as angles, squares, bars, etc. have a capacity of 500-550 tons in a day.

Quality specs Available: ASTM A615, Grade40, IS2830, JIS 3101, BS-460 B.

We have a highly sophisticated and internationally approved quality control testing lab for testing mechanical parameters like Tensile strength/ Pull out test and chemical parameters like carbon, manganese, sulphur and phosphorus contents. Our well qualified and trained operators and skilled technical and R & D professionals use highly pure raw material resulting standard specification for our products like lowest alloy losses and optimum durability, high thermal shock resistance and highest steel quality in respect to impurities.

Our commitment to quality ensures customer satisfaction. All of this while adhering to rules and regulations put forth by MOE.

SEASHORE GALVANIZING FACTORY

Seashore Galvanizing Factory, an ISO 9001:2008 Certified company, was established in 1998. The factory is equipped with all modern facilities for Hot Dip Galvanizing of iron and steel articles and currently to the requirements of M/s. Qatar Petroleum, Qatar Gas, Ras-Gas, QP, QAFAC, QChem, and for all other major projects in oil and gas sector as well as for Kahramaa, roads, building Engineering Department.

We have a state-of-the-art facility (mostly custom designed) for surface preparation, pretreatment, material handling etc. The factory is managed by experts in the industry, supported by experienced and well- trained personnel.

Within a short period of operation, the Quality system of SGF was registered under ISO 9002:2000 and certified by BVQi in November 2000, and eventually upgraded to the latest standards ISO 9001:2008.

Hot Dip Galvanizing Standards: BS EN ISO 1461/ ASTM A 123 & ASTM A385

Process: Hot Dip Galvanizing of General Structural Steel items, Pipes, Sheets, Angles, Channels, Deformed bars, and fabricated materials etc.

Facilities:

- Fully automatic airless blasting machine, with six high speed rotors set at an angle of 60 degrees to ensure 360 degrees of coverage.
- 8 Mtr x 1.2 Mtr x 1.2 Mtr Acid pickling Tanks, Rinsing tanks and Flux Tank. Dip ping bath size : 7 Mtr Long x 0.8 Mtr Wide x 1.2 Mtr Deep Capacity : Production Capacity to the range of 25 Tons Per Day.
- Maximum Size : 12 Mtr Long x 300 mm width/height by double dipping process (with prior consultation)
- Material Handling: 3 Ton Capacity x Two hoists (Total 6 Tons per crane)- 2 Nos.
- Forklifts, Cranes, Trolleys etc.

SEASHORE WASTE MANAGEMENT

Seashore waste Management Division is an ISO 9001:2008 Quality Management System, Certified Company managed by professionals and experienced workers successfully serving the national & international clients while fully complying with Industrial Quality & Safety and Environmental standards. This operation is a part of Seashore's total commitment to our environment, avoiding global resource depletion by incorporating innovative and scientific waste management. We always promote Green Building.

WASTE MANAGEMENT

We extend comprehensive waste management services and have played a significant role in the growth and development of Qatar especially Ras Laffan Industrial City, Mesaieed industrial city. As a major player in the waste management sector, Seashore has the capability to meet environmental needs in waste management and its disposal. Our service helps customers to manage their waste in an environmentally responsible manner. We possess all the requisite Municipality/MOE permits for handling all categories of waste. The custom designed waste trucking fleet and equipment makes our job easier and faster.

OUR RECYCLING CAPABILITIES

Our service is focused, concise and all aspects of the jobs are handled professionally, economically and in total compliance with all regulatory requirements.

We provide "one stop-solution" in waste management sector starting from its scratch, placing the bin for collection, transportation, segregation, recycle, treatment and final disposal to secured landfills. Our segregation yard at Ras laffan, Al Khor, Mesaieed does the segregation job with ease and thus promoting scientific waste management in line with waste streams. Industrial cleaning services and support services are carried out with high end safety and environmental standards.

Our Services at a Glance

- Solid Waste Management (Hazardous & Non-hazardous) Liquid Waste management
- Supporting Services (Supply of potable water, Sewage pulling etc) Logistics and Transportation
- Services
- Industrial Cleaning Services
- Technical consultancy Services in Waste Management

In Number – Seashore Fleet (Solid & Liquid)

223 Solid Waste Trucks

201 Waste Water Tankers

63 Water Tankers

14 Super Sucker Vehicles

11 Mini Jetting Tankers

In Number – Seashore Equipment

2100 Waste Skips

600 Waste Bins

10 Skid Loaders

30 Portable Compactors

10 Wheel Loaders

13 Road Sweepers

In Number – Waste Handled

2450 Tons
Solid Waste Handled per day

22,000 CBM
Sewage Water Handled per day

423 Kms
Swept per day

3854 Tons
Recyclable Waste Handled in 2022

7,600 CBM
Water Supplied per day

SEASHORE EQUIPMENT & LOGISTICS (SEL)

Seashore Equipment & Logistics division was established in 1990 to cater the transport & logistic needs of our clients. Soon we built up a rock solid reputation and became the go-to company for people looking for any equipment or vehicle on rental basis in Qatar. We began our rental operations with a fleet of 30 vehicles. Currently we are the market leader with more than 1000 vehicles/equipment catering to a wide range of government and private sectors.

The SEL division provides a large fleet of earth moving, lifting as well as civil and transportation equipment and vehicles with dedicated and well experienced operators who know the geography of Qatar. We also supply generators, Portacabins, Portable toilets, Concrete mixers, Plate Compactors, Containers, Air compressors, etc.

This division also offers stevedoring services. We have been operating at Ras Laffan port extending services like unlashing, lifting, handling on trailers, stacking and lashing of cargos in compliance with all standard specification. Well experienced and certified riggers and operators ensure smooth and efficient operations.

The SEL division provides a large fleet of earth moving, lifting as well as civil and transportation equipment and vehicles with dedicated and well experienced operators who know the geography of Qatar. We also supply generators, Portacabins, Portable toilets, Concrete mixers, Plate Compactors, Containers, Air compressors, etc.

Within a short period, the company has secured and completed contracts for several prestigious projects and made its presence in most of Qatar's prestigious projects. We offer our customers the fastest, reliable, safest and cost-effective transportation of goods and materials to any part of Qatar and focus on customer satisfaction and timely service. As a part of trust worthiness most of the Q-companies and other reputed clients like QP, Rasgas, Qatar Gas, Oryx, Shell, Total, QAPCO, QAFCO, Q-Chem, Qatalum, Descon, Dodsai, Tcjr, Qatar Kentz, Q.N.F.S (Qatar National Facility Services), Qatar Quory, Technip France Engineerin , Toyo Engineering, Hyundai Engineering. & Const. Co. Ltd, Nkom – (Nakilat - Keppel Offshore & Marine Ltd), W.I.T Raslaffan, IHI Qatar W.L.L, Gulf Warehousing Company QSC, Gulf Agency Co. Qatar (W.L.L.), Kaefer L.L.C, Tyseer Services, Descon Engineering Qatar L.L.C, Harris Pye Gulf L.L.C, etc. have been regularly entrusting their work to Seashore. We consider customer satisfaction as a bench mark of our success and are will continuously strive to exceed their expectations.

SEASHORE AUTOMOBILES (SINOTRUK)

Seashore GROUP is one of the largest multi-disciplinary business conglomerates in the state of Qatar. The group operates from its headquarters at Al Khor, which is about 50 km north of Doha city. The owner and Chairman of the Group, Mr. Saeed Salem Al Mohannadi, a Qatari businessman and the Managing Director, Mr. Mohamed Ali, an Indian entrepreneur, established the company in 1989. The group started small, with just three workers and modest assets. Today Seashore is a thriving enterprise with over 3,500 employees and current assets totaling over QR 1000 million. The group has grown at an exponential growth rate since its inception.

Currently Seashore Group comprises seventeen divisions that are operated by a highly professional team of qualified managers, expert technicians and tradesmen. The group owns and operates several state-of-the-art plants, machinery, equipment, vehicles, well-equipped factories, work-shops and a laboratory. To add another feather in the cap, Seashore group has started Seashore Automobiles to cater to the ever expanding need and demand of Qatar market for Robust. Trustworthy Trucks and Equipments at reasonable costs with excellent after sales service to give the best return on investment for the potential buyers Our Chairman and our Managing Director have always provided us with clear vision and prudent leadership. This in turn, has helped put Seashore firmly on the path to success and ensured that Seashore becomes a name to be reckoned with both regionally and globally

SEASHORE VEHICLE CHASSIS & BODY MANUFACTURING

Seashore is also licensed to Manufacture Chassis and Cargo bodies for Heavy truck and Trailers, Flat bed trailers, Low bed trailers, Dumpsters, Tankers (Fuel, Water, TSE, Sewage), Refuse compactors, Single and Double skip loaders, SKIPS (20CBM, & 7CBM, 4.5CBM, 3.6CBM, 1.1CBM) and Freezer cargo bodies. We are the preferred and approved body manufacturing company in the state of Qatar endorsed by Ministry of Municipality & Urban Planning, Mechanical equipment Department.

Seashore is ISO 9001: 2015(Quality), ISO 14001 :2015 (Environmental) & ISO 45001:2018(OHSAS) Management Systems Certified. In keeping with the company's objective of complete customer satisfaction, the Engineering and Contracting Division of Seashore provides quality services and solutions within a strict time bound framework.

EXPERTISE:

- ▶ Engineering Design (subcontracted / back end)
- ▶ Carbon steel, Low temperature steel, stainless steel, alloy steel like duplex, Fabrication
- ▶ Mechanical maintenance jobs for process plants and marine vessel
- ▶ Erection & Installation
- ▶ Vehicle body/ super structure manufacturing
- ▶ Manufacturing dumpsters
- ▶ Machining jobs
- ▶ Blasting & painting
- ▶

SEASHORE MEDICAL & INDUSTRIAL WASTE

We are dedicated to providing innovative and workable services tailored to the unique needs of medical and industrial sectors. With a strong commitment to environmental stewardship and public health, we offer comprehensive cradle to grave waste treatment and disposal solutions that adhere to the highest standards of safety, compliance, and efficiency.

Our mission is to safeguard the environment and human well-being by delivering responsible waste management solutions for the medical and industrial sectors. Through cutting-edge technologies, strategic partnerships, and a customer-centric approach, we aim to set new benchmarks in waste treatment and disposal services.

To find better solutions for our customers through innovation and diversity in our work. To achieve success through producing creative and sustainable solutions for any challenge.

Our core values are the guiding principles that drive our actions, decisions, and interactions. These values form the foundation of our company culture and define who we

Medical Waste Management:

We offer safe and compliant disposal of medical waste, including sharps, infectious materials, and hazardous pharmaceuticals. Our state-of-the-art facilities are equipped with the latest technologies to handle medical waste efficiently while adhering to strict emission regulations.

Industrial Hazardous Waste Solutions

Our industrial hazardous waste management services encompass a wide range of industries, from manufacturing to chemical production including oil and gas. We specialize in managing hazardous waste streams, tailoring our approaches to the unique requirements of each industry.

Environmental Compliance

Adherence to environmental regulations is non-negotiable. We take pride in maintaining the highest level of compliance, ensuring that our clients meet all legal requirements while contributing to a cleaner planet.

VOLTA BATTERY RECYCLING FACTORY

Lead Battery Collection: We offer comprehensive lead battery collection services, ensuring the safe and efficient retrieval of used batteries from various sources. Our trained professionals follow strict protocols to ensure the proper handling and transportation of these batteries to our recycling facility.

Advanced Recycling Processes: At Volta Battery Recycling, we utilize cutting-edge technologies and innovative recycling processes to extract valuable materials from lead batteries. Through a combination of mechanical and chemical methods, we recover lead, plastic, and other components, which are then reused in various industries.

Environmental Compliance: We prioritize environmental compliance and strictly adhere to local and international regulations. Our recycling facility is designed to minimize emissions, control pollution, and promote the responsible management of hazardous materials, ensuring a safe and sustainable operation.

Sustainable Practices: Volta Battery Recycling actively promotes sustainable practices within the battery industry. We work closely with stakeholders, including manufacturers and consumers, to raise awareness about the importance of recycling and responsible disposal of lead batteries. By fostering a culture of environmental responsibility, we contribute to the overall sustainability goals of our community.

SEASHORE HYDRAULICS FUEL INJECTION SYSTEMS

Seashore Hydraulic Centre provides integrated service packages for the complete range of hydraulic equipment and machines (Mobile, Industrial and marine). We specialize in hydraulic cylinder making, honing, polishing, hydraulic pump repairs, computerized pump testing and calibration with a fully equipped test bench. We offer the state-of-the-art testing and certifying facility for pumps like Bosch, Diesel Kiki, Zexel, Denso etc with the latest Bosch test bench, the best of its kind in Doha at present. We are also the authorized dealer for HIAB truck mounted cranes; MULTILIFT skips and hook loaders and CARGOTECH man lift and compactors.

Our Fuel Injection division offers various kinds of services such as inspection, cleaning, repair and calibration of various kinds of fuel injector nozzles and pumps with Bosch trained service personnel.

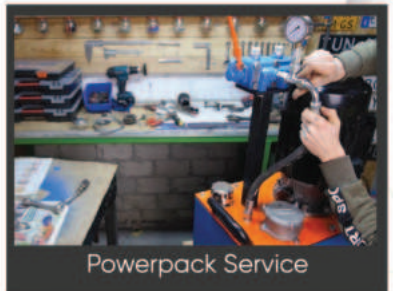

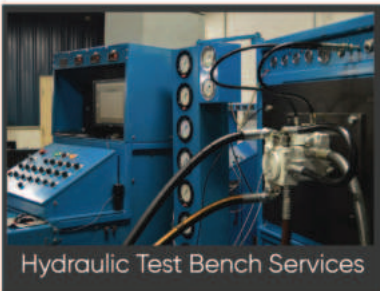

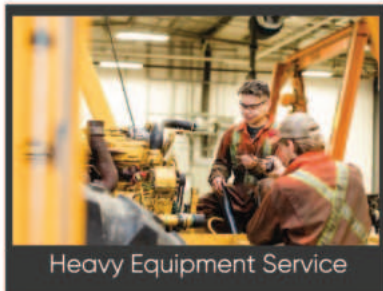

We provide these services with highest precision and quality with the help of state-of-the-art facility and well trained and experienced engineers who are experts in fluid mechanism.

Along with our mechanical division we design and manufacture certain custom designed equipment to cater waste compaction and transportation with a full manufacturing warranty and test certificate to meet the requirements of Ministry of Equipment Division (MED), QP, NDIA etc. Our commitment to quality and customer satisfaction has helped build a loyal client base for this division.

Hydraulic Services

- › Manufacturing Of Hydraulic Cylinders And Jack's Work
- › Installation And Commissioning Of Hydraulic Equipment's
- › Fabrication And Modifications Jobs
- › Hydraulic Seal Fabrication & Hose Assembly
- › Hydraulic Components Overhauling And Testing
- › Lathe Works, Hose Crimping, Istimara Jobs
- › Heavy Hydraulic Equipment's And Truck Quick Service Bay
- › Maintenance Of Lifting And Marine Equipment's
- › Manufacturing And Servicing Of Powerpacks
- › Supply And Servicing Of Lifting Equipment's And Winches
- › Customize Amc And Maintenance Packages

Fuel Injection Pump & Injector Service

- Sale of Fuel injectors pumps and Turbo Chargers
- Repairing & Calibration of all kinds of Common fuel pump and injector
- We service fuel pump brands like Bosch, Zexel, Delphi, Stanadyne, Yanmar Mitsubishi, Doowon, CAT ,Cummins etc...
- Rebuilding & Servicing of all kind of turbocharger
- Repairing of petrol injectors

SEASHORE STEVEDORING SERVICES

Seashore Stevedoring services has been recognized as Qatar's leading stevedoring companies in the Ras Laffan port operation for several years now. We combine the right balance of trained and experienced crews, standard tools and accessories to ensure smooth operation. Our services are in line with all safety and quality precautions. We can mobilize skilled workers on permanent and call off basis. All our resources are certified and trained from leading training institutes in Qatar.

Well trained Stevedoring crews

Experienced and trained Stevedoring crews available for 24 X 7

Handling all project cargos to destination

An array of certified riggers, Supervisors winch operators, banks man and tally clerks.

Own fleet to transport goods to their destination

Standby crew to cater call off services

Cargo handling

Irrespective of weight, size, volume and length

Quality and safety assurance

Tools and accessories for Lifting

Accessories for lifting, lashing and unlashings operations

Multinational working crews

SEASHORE TRADING CO.

Seashore Trading Company is the trading divisions of the Seashore Group of companies. Our main showroom & warehouse are located in Al Khor, on the main street to Ras Laffan Industrial City. We have a 17 year old proven track record offering a wide range of products for Oil & Gas, Power and other major industries in the disciplines of Civil, Mechanical, Electrical and Instrumentation.

In the state of Qatar we are the main dealer for personnel protective/safety equipment/tools, lifting equipment/accessories, Drilling, Grinding & Sawing machines/spare parts, all kinds of tools and tool kits, Pneumatic machines, dust extractor, blower, heat guns, SS & CS fasteners & Fittings, etc. We provide world brand products like COFRA safety shoes, MIRINDA tools, Battioni pumps, Mighty Seven pneumatic tools, ATG Gloves, FORCE hand tools, BAND-IT fasteners.

As a part of our customer base expansion and to extend timely services to our Doha / Wakra based customers, we have opened our new showroom at Najma Al Harj Souq, Doha and Wakra Barwa village, thus reinforcing our commitment to customer needs and expectations. We have developed a sterling reputation with all major clients in Qatar through our commitment to provide safe & defect free equipment/systems/materials within the delivery schedule. We also offer continuous support by providing reliable technical information, updates and after sales service support.

Product quality assurance and on-time showroom/site delivery are the hallmarks of this division. With our quality products and reasonable prices, we are always prepared to meet any requirements from our customers throughout Qatar. Diversity in brands and products, different quality ranges, reasonable pricing, customer-friendly approach, proactive business culture, reliable and strong after sale support and quick response are some of the value attributes that make Seashore trading unique in the trading sector.

Our More Products

SEASHORE PIPES

Seashore Pipe, is the group company of seashore group, which is the largest Multi-disciplined business conglomerate in the state of Qatar Owned by Mr. Saeed Al Mohammadi. The Group was established in the year 1989. From its humble beginning with small work force and meager finance, SEASHORE GROUP, today has grown; having a work force of over 4000 employees with current assets of over QR 1 Billion, about USD300 million.

In line with our policy of having presence in infrastructure field, we have come -up with state of Art ERW Pipe Manufacturing Plant at New Industrial Area, Doha, Qatar. Our product range for ERW Black and Galvanized Circular Pipes is from 25 mm NB (1" NB) to 100mm NB (4" NB) in a thickness band of 1.00mm to 6.0mm, Square Tubes from 25x25mm to 80x80mm and Rectangular Tubes from 50x25 120x60mm. The tubes and pipes are mainly used in commercial, construction, scaffolding, fencing, irrigation, interiors, furniture, automotive, scaffolding structures, fluid conveyance systems and light to medium duty structural applications.

SEASHORE PANEL FACTORY

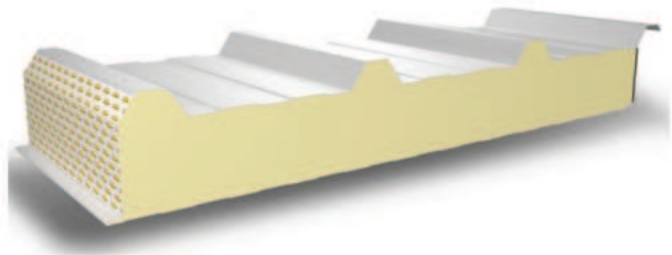

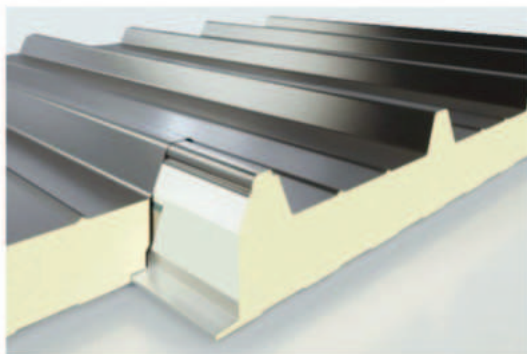

Seashore Panels is one of the latest venture from the trusted Industrials conglomerate in the State of Qatar, located in New Industrial Area, Doha; under the Ministry of Industries. Seashore Panels is specialized in Designing and Manufacturing of Insulated Polyurethane Sandwich Roof & Wall Cladding, Cold Room panels, Decking Sheets, Z & C Purlins, Single skin sheet, etc.

Our Vision & Mission

To provide cost effective solutions to our customer without compromising on quality, aesthetics & environmental aspects by maintaining professional & reliable services.

Our Priority

Project Excellence is Our Top Priority, When it comes to innovations in engineering, Seashore Panels sets the standard for other companies. Seashore Pre-Engineered Buildings are simple and economical in design, yet fully functional and diverse in purpose. .

We take pleasure in introducing to you Seashore Panel as one of the fastest growing PEB components and Insulated panels manufacturing company in the Middle East with operations spanning Middle East, Indian Sub-Continent, South East Asia and Africa.

Seashore Steel Pre-Engineered Building Division is one of several units operating under the Seashore corporate group. Over the last decade. Seashore Steel business has grown in size to become a significant part of Seashore corporate group, Seashore group began operations in 1980's, specializing in the design and manufacture of top quality steel Buildings to be used as factories, shopping malls, warehouses, distribution centers, airplane hangars, and schools. This vast knowledge and experience gained during the last several decades helped Seashore Steel to develop current state of art design and manufacturing facilities and to become market leader in the pre-engineered steel industry.

SEASHORE CABLES

Seashore Cables Factory is a Direct subsidiary of Seashore Group Qatar, which is a multifaceted business conglomerate Head Quartered in the State of Qatar. At Seashore group we leave no stone unturned to make sure that we are best in what we do and always ensure our commitment for providing the products and services to our esteemed clientele.

The mission of Seashore Cables is to “Power the Nation” by manufacturing excellent quality cables. This mission is based on technological commitment, continuous improvements, and maintaining high-quality standards. From the beginning, Seashore Cables has been totally “Committed to Quality” and has only one ambition, to be seen as the best and develop a lasting bond with our customers.

Seashore Cables to become the most preferred cable manufacturer in Qatar and the Middle East region for Building Wires, Indoor Wires, LSZH cables, low- and Voltage Power Cables,

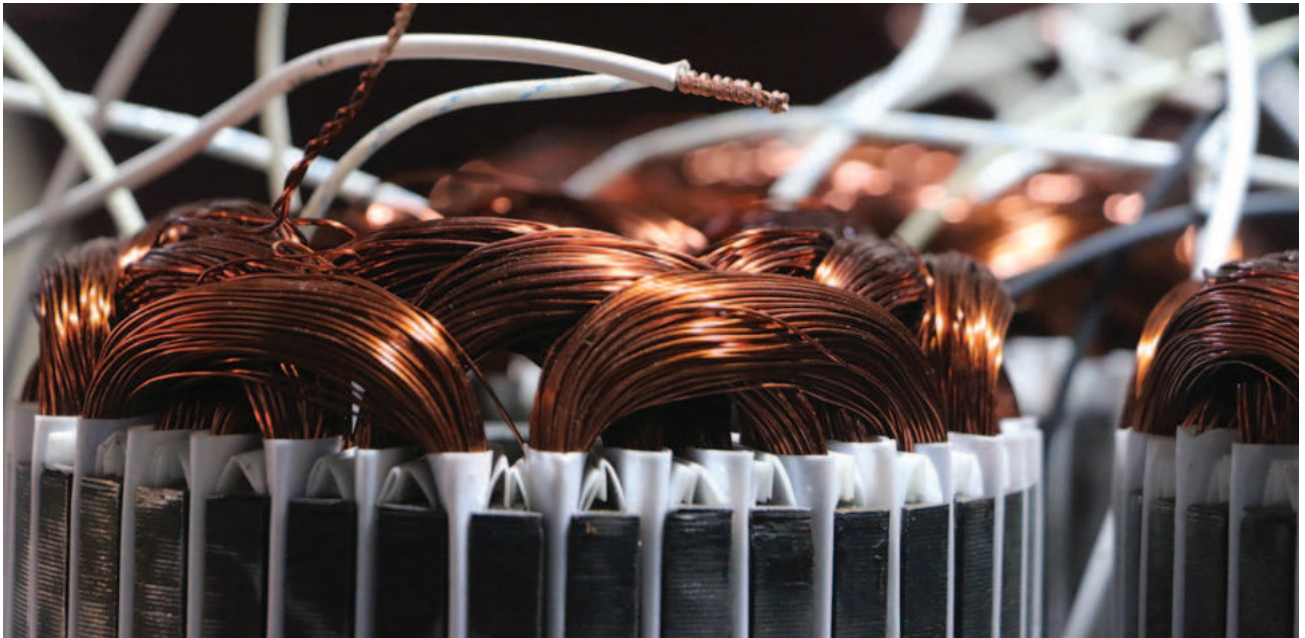

Instrumentation & data Cable as per National & International specifications like BS, IEC, ASTM, DIN etc.

SEASHORE MOTOR REWINDING SERVICES

Seashore Motor Rewinding Division has perfected the process to rewind AC & DC motors, assuring exceptional repair and rebuild. A properly planned and executed motor rewind will cause no efficiency loss in electric motors, but you may see improvements in power density, reliability and overall efficiency thanks to leading equipment and practices that your GES certified technician will use. Your rebuild and motor rewind may include some additional improvements you haven't considered, such as upgrades to the latest resins and insulating tapes that can improve overall thermal dissipation, especially when working on older motors.

As a qualified service provider, we always ensure your rewind motor is brought back up to OEM standards and efficiency expectations. Giving you the best rewinding service for electric motors starts with a complete review to understand if there is any problem with your motor that you were unaware of during submission. If we discover anything, we'll contact you right away with an updated quote and information on our concern. You must give us approval before any work is performed, so we are both in agreement for the final cost.

Welding Machine Repairing

Submersible Pump Services

DUTY WEAR

Duty Wear is a subsidiary of Seashore group. Since 1989, Seashore has become one of the largest multi disciplined enterprises in the state of Qatar. As a 100% Qatar owned and operating company, we are proud of our reputation in the market in different segments. Seashore Group comprises of 17 divisions and Duty Wear is the newest venture to contribute to our goodwill.

Duty Wear's ambitious objective is to create beautifully styled and tailored high quality uniforms, custom-made corporate uniforms, work clothes, and accessories at very competitive prices.

Custom Made

We have an extensive range of Custom Made, Design Your own Uniforms for Corporates, Schools, Sports uniforms, Promotional and Work Uniforms

Printing

Screen Printing, Digital Printing and Heat Transfer.

Embroidery

We have precised, detailed and custom embroidery process which ensures the highest quality and fastest production.

Sublimation

Sublimation is a process of printing to fabric that provides a high quality and durable printing option. The colour remains strong in outdoor lighting and after extensive washing - commonly used for Sports Team Uniforms and School Uniforms.

Fastest Turnaround Time

We offer the quickest turn around time without compromising on the quality. Our expertise understands the challenge of processing bulk orders and are equipped to process large quantity. We operate 24/7 for your assistance.

Stock holding solutions

Stock Holding Solutions ensures corporates and schools, an additional back-up stock of your main uniform items held at our Al Khor warehouse for immediate delivery. The stock levels to be held, and the length of time this stock can be held for is negotiated depending on existing purchasing volumes.

Offshore Manufacturing

DutyWear can supply uniforms manufactured locally at our factory in Al Khor, plus offer garments manufactured in China and India by our manufacturing partners. This service is available with our standard size patterns. Customers with high turnover of uniforms would benefit from the reduced prices available for this service

Fabric Development

At Duty wear you have endless possibilities in fabric development, whether it be woven or knitted fabrics to meet specific applications. We provide clients with custom weaving to meet user requirements, in both prototype and production run. We also manufacture special finishing Medicare textiles with applications like Anti-microbial, Blood resistant etc.
